Điểm 1,00 của 1,00

For the following situation, which of the answer is **INCORRECT**? "Setup consultation allows two or more doctors, working in different offices, to view the same record at the same time. One doctor initiates the consultation by choosing the people involved from a drop-down menu of doctors who are online. The patient record is then displayed on their screens but only the initiating doctor can edit the record. In addition, a text chat window is created to help coordinate actions. It is assumed that a phone conference for voice communication will be separately set up."

Chọn một:

- ☐ a. The infrastructure manager, if any, should be one of our stakeholders.
- ☐ b. It is a use-case.
- ☐ c. There is a lot of work to implement this feature.
- ☒ d. Actors are Doctor and Patient.

Câu trả lời đúng là: Actors are Doctor and Patient.

Câu hỏi **6**
